

**“You Should
Eat So Well.”**

Fromm Four-Star Nutritional for Cats

Variety is the spice of life

All-natural recipes hand-crafted to compliment one another. We encourage you to switch between Four-Star varieties as often as you would like. You can even mix dry, and can recipes for a meal that is totally unique!

Fresh is always better

Each dry and can recipe starts with only the freshest choicest meat or fish. We then add an unmatched combination of fresh produce, including sweet potatoes, broccoli, alfalfa sprouts, carrots, apples, blueberries, and cranberries.

How fresh is Fromm fresh?

We schedule our production around the delivery of our fresh ingredients. If fresh Pacific wild-salmon is delivered to our plant in the morning, we make our Salmon based products like Salmon À La Veg and Surf & Turf that very day.

Minimal Processing

In lieu of baking our dry recipes, which can damage nutrients with high temperatures; we use a low-temperature, high-moisture extrusion process that assures that all starch is thoroughly cooked, and that no damage occurs to the proteins.

Safety is paramount

Our recipes contain only USDA-inspected ingredients prepared at USDA-inspected plants in the Midwest including our own dry food and treat plant. Every delivery of raw ingredients is thoroughly inspected by our team of quality control experts.

Slow-Simmered Dry Recipes

All life stages

Fromm Four-Star is complete and balanced for cats of all life stages. Kittens, adults, seniors, you name it. Just adjust feeding as necessary. For example, if your cat is trying to lose weight try a leaner entrée like Chicken À La Veg.

From our family to yours, a family tradition

Each dry recipe is prepared in small batches at our family run plant in Wisconsin. We oversee every aspect of production from start to finish ensuring each step measures up to our strict quality standards. Our cans are made at a family-run plant in South Dakota.

Fromm Family Foods has been family owned and operated in Wisconsin since 1904. President and head chef Tom Nieman is a 4th generation family member and was the understudy of the late Dr. Willard Roberts, PhD. - Dr. Roberts is recognized as the father of modern pet foods, having pioneered the process of producing the dry, granular food that is so popular today.

Chicken À La Veg

A specially prepared dish of lean free-range chicken with fresh broccoli, carrots, blueberries, and other fresh produce.

Since 1904, The Fromm Family has maintained a tradition of quiet innovation dedicated to the health and nutrition of animals. In the 1930's, The Fromm Family introduced the first canine distemper vaccine. In 1949, we introduced the concept of premium pet food to the public. As the country's **first and oldest premium pet food company**, we have earned the reputation as an industry leader, producing only the highest grade pet foods with the finest natural ingredients.
